Optimized storage solutions from Solidigm complement Rutronik's product portfolio

Solidigm looks back on decades of technical innovation and offers a broad portfolio with industry-leading quality and reliability.

Ispringen, May 31, 2022 – Rutronik Elektronische Bauelemente GmbH and Solidigm, a global provider of NAND flash and SSD products, have signed a worldwide distribution agreement. The agreement covers Solidigm's entire product portfolio and is already effective.

As a leading provider of optimized data storage solutions, Solidigm's products complement Rutronik's line card. Solidigm has a portfolio of exceptionally high-quality and reliable SSDs, optimized for real-world performance in data center, enterprise and client environments.

"Solidigm is very pleased to be working with Rutronik to make our products available to customers worldwide," said Robert Vodnik, EMEA Distribution NAND Products & Solutions Group Sales Director at Solidigm. "We share a commitment to excellence and to delivering high-performance storage solutions to meet customers' needs, making this a strong partnership."

"Our partner Solidigm combines decades of experience and technological innovation with groundbreaking quality and reliability," says Markus Schürger, Corporate Product Manager Boards & Storage at Rutronik. "This puts us in a position to offer our customers storage solutions that enable them to unlock the potential of data from their applications even more efficiently and comprehensively."

Further information on Solidigm and its product range are available under the new Solidigm [MicroPage](#) and [Rutronik24](#).
